

## TH1INB 80

Item number: 900.21.1082.2

EAN: 5703347902123

Experience a hob that impresses with a maximum power of 7200W for fast and efficient cooking. Take control of your kitchen with impressive power and precision

The elegant Thermex TH1INB80 induction hob presents itself with a width of 78 cm and a surface in black glass. With four square zones, each measuring 200x190 mm, it offers a versatile cooking experience. These zones can be connected using the bridge function, creating two large zones. Each zone delivers up to 2100W, and when combining the zones with the bridge function, the total power becomes 3000W. The maximum power is 7200W. The surface is easily wiped clean with a damp cloth, ensuring that the hob always looks its best.

TH1INB80 offers an impressive range of features that make cooking simple and efficient:

**Bridge function:** Enables the combination of two zones to create larger cooking areas as needed.

**Boost function:** Provides instant extra power, ideal for quick heating.

**Child lock:** Ensures that the hob is not unintentionally operated by children, increasing safety in the kitchen.

**Timer function:** Available on all four zones, providing precise control over the cooking process.

**Safety shutdown:** Automatic shutdown of the hob if you forget to turn it off after cooking.

**Residual heat indicator:** Warns about which zones are still hot, even after cooking is completed, for extra safety.

**9 adjustable heat levels:** Gives the user full control over the heat settings on each zone, allowing precise customization of the cooking process.

Thermex TH1INB80 combines stylish design with advanced features, delivering a hob that is not only a delight to the eye but also a reliable partner in the kitchen with impressive capacity and smart functions.
