

Thermex Silent One Ø100 mm, white

Item number: 200.34.2201.2 € 384,08

EAN: 8413893598608

Multifunction fan with adaptive hygrostat that ensures a healthy indoor climate

Multifunctional fan with adaptive hygrostat ensures a healthy indoor climate. Adaptive hygrostat. **THERMEX Silent One** is equipped with a unique system that adapts to the humidity in the surroundings both inside and outside.

The fan is activated when the humidity fluctuates, this takes place in two stages. For minor fluctuations, the suction power is increased to $65\,\text{m}3/\text{h}$ and for large and sudden fluctuations, the suction power is increased to $90\,\text{m}3/\text{h}$. When the humidity is back to its original level, the suction power changes to $25\,\text{m}3/\text{h}$, which is the normal level.

Basic ventilation + boost; Silent One runs around the clock on basic ventilation and sucks 25 m3/h. When activating the adaptive hygrostat or presence sensor, the suction power increases.

24/7 function can be canceled if desired (see instructions). Front and edge suction. THERMEX Silent One is aerodynamic - suction both in the front and on the sides, which provides an elective and uniform suction in the room.

Motion sensor. THERMEX Silent One has a motion sensor - switches on and off automatically. Runs 24 hours a day at the minimum level, $25 \, \text{m}$ 3/h when moving, the air volume increases to $65 \, \text{m}$ 3/h.
