A⁺

The Thermex TFM 480 in stainless steel with motor is a minimalist built-in hood that is hidden in the upper cabinet. The built-in switch panel makes it easy to use the hood. The motor is an energy-efficient Eco motor, which ensures a low noise level

Clean and rustic steel appearance is what characterizes **Thermex TFM 460 & TFM 480**, at least the visible part of them. More hidden, but no less important, is the efficient motor and the low power consumption. The TFM 460 and TFM 480 are for those who want a reasonable alternative to the expensive hoods such as Thermex Metz Mini and Metz Micro, and who at the same time like the stainless look. The built-in motor can move up to 611 m³/h
