A+

The Thermex TFM 480 with white glass and built-in motor is a minimalist built-in hood that is hidden in the upper cabinet. The built-in push button control makes it easy to use the hood. The motor is an energy-efficient Eco motor, which ensures a low noise level

A stylish appearance is what is recognized by **Thermex TFM 460 & TFM 480**, at least on the visible part of them. More hidden, but no less important, is the efficient motor and the low power consumption. The TFM 460 and TFM 480 are for those who want a reasonable alternative to the expensive hoods such as Thermex Metz Mini and Metz Micro, and who at the same time like the design with edge suction. The built-in motor has a capacity of up to 611 m³/h.
