Thermex Manchester 60 cm in white with standard motor is an efficient and quiet hood for cupboard mounting. The built-in motor ensures efficient extraction and the control button ensures simple and reliable operation.

Thermex Manchester is a traditional kitchen hood with a look and functions that you are used to. Available in a Standard and a Lux model, Lux has a more powerful motor than Standard, but both are available in 50 and 60 cm widths. Suitable for renovation projects or when you just need to replace the hood because the old one no longer works. It has an air intake in the front so it fits perfectly when you want a hood with carbon filter. The built-in motor can produce up to 231 m³/h.
