Thermex Trent 58 cm is a unique solution for extractor hoods when they are integrated into your cooking island or worktop

A unique solution for extractor hoods is when they are integrated into your cooking island or worktop. When you start the Thermex Trent, it is raised to working height, when you switch it off, it is lowered back into the worktop. Thermex Trent can also be used together with [Thermex Plasmex®](#), so you don't have to make the exhaust yourself outdoors, something that can be both difficult and expensive when you want to have a cooking island. Trent is a little different, but an incredibly cool solution that everyone will notice.
