

TH1IN30

Item number: 900.21.3022.2

EAN: 5703347902086

Thermex TH1IN30 is a compact induction hob, perfect for small kitchens. Elegant black glass, two zones with boost and timer. Easy operation and cleaning. Efficient cooking in a space-saving design.

Thermex TH1IN30 is a simple induction hob designed for efficient cooking and space-saving. With two zones and a compact design, it fits perfectly in smaller kitchens where space is precious. It has a width of 29 cm and an elegant black glass surface, providing a stylish look. The 2 round zones can deliver 2000 and 1500 W, ensuring quick heating and cooking of your food.

The intuitive glass touch panel allows easy operation, and with built-in features such as a timer and Boost function, you get precise cooking and fast heating. Cleaning is a breeze with a simple wipe with a damp cloth, making TH1IN30 an ideal solution for those who want both efficient cooking and convenience.

Features:

Boost Function: Enjoy improved power and instant heating with the Boost function on both zones.

Child Lock: Built-in child lock ensures that the hob is not accidentally operated, making it safe for the whole family.

Timer Function: Both zones are equipped with a timer function, giving you full control over the cooking.

Safety Shutdown: For increased safety, there is a safety shutdown if you forget to turn off the hob after use.

Residual Heat Indicator: Keep track of the temperature with the residual heat indicator, warning you of possible heat after use.

Individual Heat Levels: Adjust the heat with 9 adjustable heat levels on each zone.

Specifications
