

Mini element FMS 200

Item number: 121.22.2000.2

€ 431,45

EAN: 5703347102882

For frost-free environment power 200 watt mounting on wall
vandal-proof construction

Frost Guard - Mini element has a large heating capacity despite its size. The thermostat is continuously adjustable between frost protection + 5° C and + 35° C.; Thanks to its design and size, Frost Guard fits into many different outdoor spaces in homes, caravans, basements, automatic cabinets, data cabinets, etc.

Frost guard - Mini element can be used with advantage in damp environments, e.g. greenhouses, pump houses and milk houses. A built-in overheating protection provides extra protection. Approved for placement in dry, as well as in damp and wet rooms.
