

Mini element FML 200

Item number: 121.22.2200.2

€ 421,38

EAN: 5703347101113

For frost-free environment-Effekt 200 watt-mounting on wall-vandal-proof construction

Frost Guard - Mini element has a large heating capacity despite its size. The thermostat is continuously adjustable between frost protection + 5° C and + 35° C. Thanks to its design and size, frost protection fits into many different outdoor spaces in homes, caravans, basements, automatic cabinets, data cabinets, etc.

Frost guard - Mini element can be used with advantage in damp environments, e.g. greenhouses, pump houses and milk houses. A built-in overheating protection provides extra protection. Approved by DEMKO for placement in dry, as well as in damp and wet rooms. FML 200 must be mounted horizontally on the wall.
