Lyon 90 cm Free-hanging in stainless steel with motor is a classic hood with a large suction surface, efficient and energy-friendly ECO motor, as well as a simple and user-friendly glass touch panel

**Model Lyon** is a classic rectangular hood with clean and tight lines and rounded corners. The large filter surface ensures efficient and uniform suction. The proximity of the filter surface to the hob ensures efficient absorption. The depth of 520 mm provides plenty of space around the hob. [Thermex «All Possibilities» solution](#) means that it can be adapted to all homes and all types of exhaust and ventilation systems, including [Thermex Plasmex®](#).

The hood is controlled by our new smart remote control or automatically via the hob with Thermex [Thermex Toplink®](#). In addition, you can operate the hood via the Thermex Remote app, which can be downloaded for free from the App store and Google Play. In the app, it is possible to adjust the brightness, activate periodic extraction and get an indication of the filter.

You can also use [Voice link](#) the functionality built into the hood. Here you can control the hood with your voice alone via **Google Assistant (Hey Google)**. So there are plenty of options to choose from to operate your Thermex Lyon. The built-in motor can produce up to 525 m<sup>3</sup>/h and as much as 740 m<sup>3</sup>/h when using the boost function
